(54) Title: **PRINTED COUPONS WITH EMBEDDED DISCOUNTS FOR ONLINE PURCHASES**(54) Titre: **COUPONS IMPRIMES AVEC REMISES INCLUSES POUR ACHATS EN LIGNE**

## (57) Abstract

A method for providing discounts in e-commerce transactions comprising printing a discount coupon (2) with human readable information describing the incentive, product, vendor, and a machine-readable symbol (2b) such as a linear or two-dimensional bar code symbol. The symbol is encoded with data fields comprising a first identifier associated with the Internet Protocol address of a vendor's computer, optionally, a second identifier associated with the discount applied to a product, optionally, a third identifier associated with the targeted consumer, and optionally, instructions to enable a computer to access a client program. The method also comprises the steps of disseminating the discount coupon (2); scanning the machine-readable coupon symbol; decoding the scanned data to generate the vendor's IP address; launching the client program to enable access to the online system; communicating with the vendor's host computer; and downloading a file from the vendor's host computer associated with the scanned coupon (2).

## (57) Abrégé

La présente invention concerne un procédé, permettant d'accorder des remises dans des transactions commerciales électroniques, qui consiste à imprimer un coupon de remise (2) doté d'informations lisibles par un consommateur, décrivant le vendeur, le produit et la remise et un symbole (2b) exploitable par ordinateur tel qu'un code barres linéaire ou en trois dimensions. Le symbole est codé par des zones de données comprenant un premier identificateur associé à l'adresse de protocole Internet d'un ordinateur de vendeur, éventuellement un deuxième identificateur associé à la remise appliquée à un produit, éventuellement un troisième identificateur associé au consommateur ciblé, et éventuellement des instructions permettant à un ordinateur d'accéder à un programme client. Le procédé comprend également les étapes consistant à diffuser le coupon de remise (2); à balayer le symbole de coupon exploitable par ordinateur; à décoder les données balayées de façon à produire l'adresse IP du vendeur; à lancer le programme de façon à permettre l'accès au système en ligne; à communiquer avec l'ordinateur hôte du vendeur; et à télécharger depuis l'ordinateur hôte du vendeur un fichier associé au coupon balayé.

**making promotional offers available to U**

**coming later 1998**

planet U will be making consumer promotions (coupons, rebates, samples, continuity points) available to you on line -- basically an opportunity to get more off the Web than exposure to more banner ads.

**it's for U**

As a planet U member, you will gain access to a gamut of promotional offers from major marketers. You simply "click and choose" which offers you want.

**it's convenient and easy to use**

- These offers will be available online. Specifically, planet U will make these offers available to you through our Web partner affiliations, our marketing customer's Web sites, and our very own homepage.
- Once you determine which offers you want they will be mailed to you directly.
- Our promotional offers can be redeemed at any retail outlet, regardless of where you live or shop.

**coming soon**

By the middle of next year we will eliminate the need for you to carry any paper around by connecting directly to retailer POS (point of sale) systems (we already have a pilot test running).

In all of this sounds exciting and you want to be one of the first to join, [email us](#) and we will contact you when we are live.

## planet U™'s retail services

planet U helps retailers leverage their online investments. Recently, we launched our pilot program with Dick's Supermarkets, a retail chain located in Wisconsin.

Working with Dick's we added U-pons™ - Internet Coupons to their website, enabling them to deliver targeted promotions to online consumers.

You can view their site at  
[www.dickssupermarket.com](http://www.dickssupermarket.com).

We are proud to announce the additions of Upons - Internet Coupons to Kroger.

Launched in October of 1998, Richmond-based Ukrop's now offers U-pons.

**Ukrop's**

As of February 2, 1999, Longs Drugs has also added U-pons to their website.

Launched in June 1999 Shaw's Supermarkets offers both U-pons and U-porium.

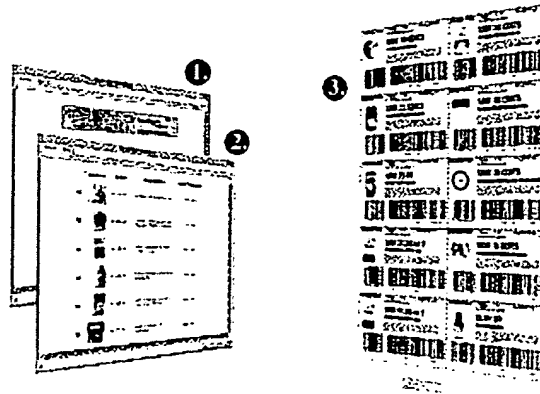

## retailer U-pons program

planet U is ready to help retailers harness the power of the Internet for consumer and trade promotions.

## turnkey internet promotions

Add valuable consumer promotions to a retailer website with planet U's Retailer Starter Program. Retailers will be able to reach consumers through a powerful new medium, and will also be able to enhance frequent shopper capabilities for promotional targeting and communications.

It's as easy as 1-2-3...

1. Consumer clicks on banner ad on retailer site.
2. Consumer selects U-pons offers.
3. Securely printed U-pons mailed to consumer's home.

### U-pons for the retailer

In addition to manufacturer U-pons, retailers will have the opportunity to offer U-pons for their own promotions, including:

- Private label
- Meat
- Produce
- Deli
- Bakery
- Floral
- Meal Solutions
- Pharmacy
- Video Rental
- And more...

### targeting technologies

planet U will provide targeting technologies to integrate geographic, demographic, lifestyle and lifestage data and information provided by the consumer. We will incorporate your frequent shopper card and POS transaction information into the targeting program.

### benefits for retailers

- Develop an interactive 1:1 relationship with consumers
- Leverage the growth and popularity of the Internet
- Enhance frequent shopper data capabilities for targeting and communications
- Spend locally generated "Market Development Funds" more efficiently
- Increase consumer satisfaction and loyalty

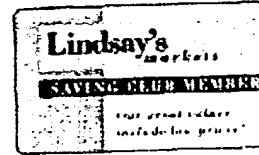

### benefits to consumers

- No more clip-n-clutter of Sunday FSI's

- Exposure to offers that are most relevant
- Self selection of offers
- Available 24 hours a day, 7 days a week, 365 days a year

### the electronic connection...from internet to POS

As a second phase, planet U will electronically connect retailer web sites to frequency marketing or electronic discount card programs. It's the same as the primary program, with one big difference: consumers redeem offers directly from their frequent shopper card. There's no need for paper based coupons. Electronic U-pons are cleared via your POS system.

[Advertising Information](#)

## How To Use The **Klipper**<sup>™</sup>

Our exclusive new technology lets you create your own page or book of coupons with just a few mouse clicks. It's so fast and easy.

- **To Clip a Coupon**

When you see a coupon you want, click on it with your mouse. The **Klipper** will remember it for printing later. You may move from page to page clipping as many coupons as you want.

- **To Print Your Coupons**

When you are ready to print your coupons, press the **Klipper** button. A new window will open with all of your selections assembled for printing. Print your coupons.

**Note:**

Klipper technology requires a Javascript capable browser like Netscape or Internet Explorer (available for download and automatic installation from AOL).
